

# EZ2000

## Positioner for satellite antenna

★ Features		★ Spec.	
32 easily programmed positions		Programmable satellite positions	32
20 keys full function IR remote control		LED display	2
Re-synchronizing function for quick reposition		Power consumption	80W
Programmable east/west limits		Input voltage	220~240VAC/ 50Hz
Wrong wiring and short circuit protection		Output voltage	-
		Compatible actuator voltage	24~36VDC
		Output current	1.7A
		Suggested dish size	3M
★Packaging			
Packing spec.	10
